## **IN-DEPTH SERVICE ANALYSIS**

## OUR SERVICES

### ICT Training

We train our youths, with help from Donors, investors, NGOs & Governments.

Our ICT training services

- Coding for Website and Software development
- Entrepreneurship Bootcamps
- Career mentoring

### Enterprise System Solutions (ESS)

We train organizations, with help from modern online enterprise system tools to help them focus more and increase productivity focused on:

1. Projects
2. Data

Projects – Project management tools

Data – Data Analytics tools and our solutions

### Consultancy

We provide consultancy on:

1. ICT
2. Business Development
3. Corporate Social Responsibility (CSR)

## ICT TRAINING

---

### Coding for Website and Software Development

With our Competent pool of experts, we teach our youths how to code.

### Entrepreneurship Bootcamps

Since we train our youths how to code and ICT functions or skills, with entrepreneurship bootcamps we teach them how to launch their ideas into the real world of business. This creates self-employers and entrepreneurs in the market, as a way of employment generation

### Career mentoring

We mentor our youth's careers by exploring the ICT world and find suitable opportunities that match their interest

---

## SERVICE DELIVERY APPROACH

## ENTERPRISE SYSTEM SOLUTIONS

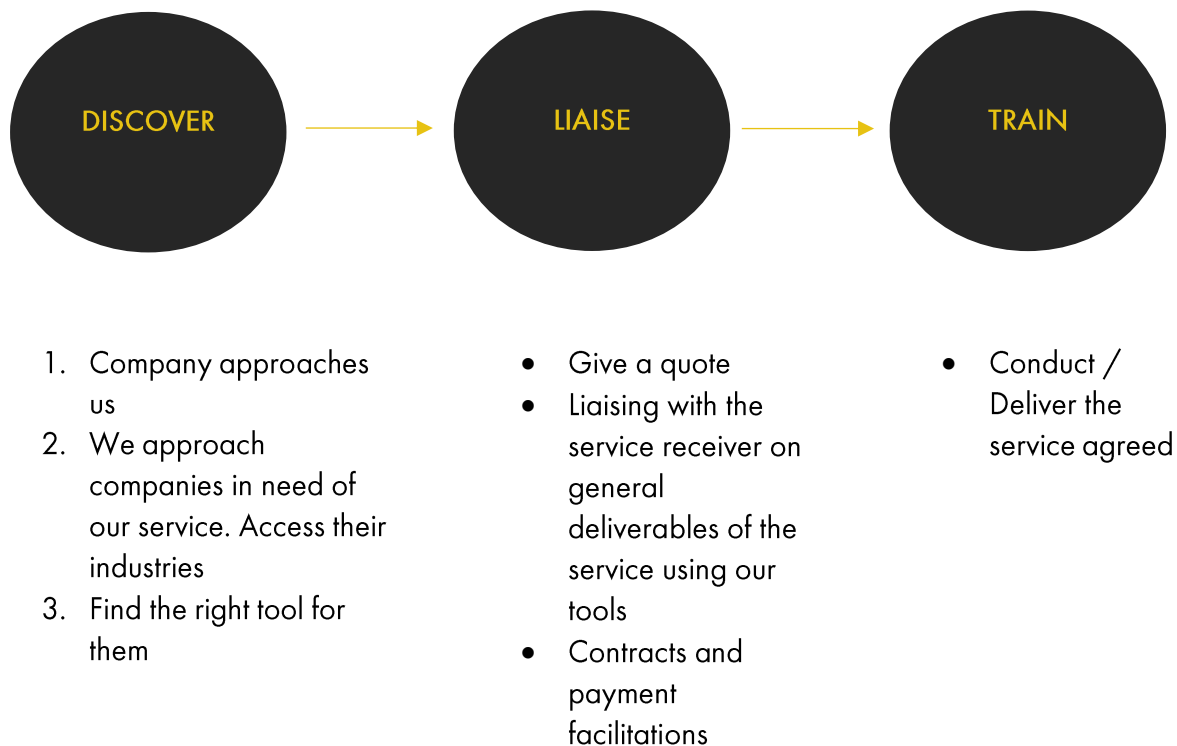

---

Our focus is to make projects performed in the right standards, and following the project management cycle and data analyzed to produce insights to come up with a viable strategy and having insights from the overall view using data. We use the best available tools a company needs from looking at their industry and then implementing the best or right tool the business needs to work well with data and projects

### SERVICE DELIVERY APPROACH

---
