Dear selection committee,

I hope this finds you well.

I would like to confirm that Kenneth Joseph Ochieng is a talented individual who was part of the Access Program at Moringa School. The Scholarship is granted to talented youth from needy backgrounds to take a course in Software Development.

Joseph Ochieng has proved to be a determined and dedicated individual, which led to his graduation from Moringa School in March 2020. Apart from the fact that he would benefit greatly from financial assistance, I would like to express my confidence in his ability to succeed in Information Technology as he has a solid background in Software Development.

Thank you for taking the time to consider him for this. In case of anything, please feel free to reach out to us on access@moringaschool.com.

Kind regards,
Emma Sharon
Access Student Support Assistant
